# CURSO DE INGLÉS ONLINE A2

# ANTECEDENTES GENERALES

---

Nombre del curso  
Inglés A2

Cantidad de clases  
44

Requisito para  
Nivel B1

## DESCRIPCIÓN DEL CURSO

---

El curso de Inglés online A2 propone mejorar el conocimiento del idioma inglés mediante estrategias que permitan a los estudiantes desenvolverse eficientemente en contextos y temas significativos para los estudiantes, integrando enfoques y métodos variados que estimulan a los estudiantes a aprender más y mejor.

El currículo nacional optó por el Marco Común Europeo de Referencia para las lenguas (Common European Framework, CEFR) como un referente para establecer estándares y descripciones con respecto al logro de las habilidades. Esta plataforma interactiva está alineada con el Marco Común Europeo, por lo cual los estudiantes al finalizar este curso, habrán cubierto los contenidos correspondientes al nivel A1 de este Marco en relación a las habilidades receptivas (listening and reading).

## ENFOQUE

---

El curso tiene un enfoque comunicativo y recurre a diversas estrategias para lograr la motivación de los estudiantes. Las habilidades receptivas son el centro de atención y los alumnos podrán aplicarlas activamente si realizan las actividades propuestas. Los temas son cercanos y se presentan en situaciones de la vida cotidiana con un toque de humor que contribuye a que el estudiante continúe perseverando en su aprendizaje. Las actividades y tareas diseñadas son significativas, desafiantes y graduadas, entregando la oportunidad de realizarlas varias veces y autocorregirse para alcanzar su logro. La gramática está implícita y en contexto, esperando que el estudiante vaya incorporando las estructuras una vez que ha entendido completamente el texto y practicado los muchos y variados ejercicios. Ante las dificultades gramaticales se proporciona una explicación clara en la sección correspondiente.

La innovación de este curso online, son los profesores virtuales que estarán a disposición del estudiante cuantas veces lo requiera en su proceso de aprendizaje. Mr. Perfect para gramática, Miss Lexis para vocabulario, y Ms. Say it Right en pronunciación, lo acompañarán en su aprender. Es importante destacar además, que un idioma se aprende junto con su cultura por lo tanto The Culture Corner contribuirá a reforzar el aprendizaje dando notas interesantes respecto a diferencias y similitudes entre los dos idiomas y sus hablantes. A lo largo del curso, los estudiantes completan tareas que activamente los envuelven en la utilización de estrategias de aprendizaje como la predicción, la comparación con la lengua materna y la deducción, las que los ayudan a resolver problemas gramaticales de forma natural e inductiva. Los estudiantes son motivados a utilizar las estructuras aprendidas durante las lecciones en situaciones personalmente relevantes.

La propuesta metodológica reconoce la importancia de la revisión, reciclaje de vocabulario y gramática constante y sistemática para los estudiantes de idiomas extranjeros en la presencia de una variedad de actividades con dicho fin.
